

## SUMMARY

Senior Software Engineer with over 5 years of experience specializing in JavaScript and React.js. Proven expertise in building dynamic, responsive web applications and delivering high-quality software solutions. Adept at leading development teams, optimizing performance, and implementing best practices in modern web development. Strong background in component-based architecture, state management, and integrating APIs. Exceptional problem-solving abilities and a track record of successfully driving projects from concept to completion in agile environments.

## EDUCATION

### MES Institute of Technology And Management Chathannoor

B.Tech in Information Technology  
2014 – 2018

## SKILLS

- Javascript
- React JS
- Node JS
- React testing
- TypeScript

## PROJECTS

- **Hyphen Wallet-** app to track payments
- **Hyphen wallet admin** - app to manage payors and payees
- **Invoice Extract** - app to extract details from a invoice using aws
- **SLAM** - Swear Level Alert Manager
- **DAM** - Water treatment plant alert manager

## PROFESSIONAL EXPERIENCE

### Senior Software Engineer

Inapp Information Technologies | MAR 2022 - Present

- Tasked with upgrading legacy wallet app, enhancing performance and modernizing UI design
- Reduced the app loading time from 10 sec to 2 sec by adding code splitting and various image optimization

### Software Engineer

Vanillanetworks ( Explore AI ). | OCT 2020- MAR 2022

- Worked on 2 alert managers SLAM and DAM for Thames water UK
- Utilised D3 to craft highly customizable, optimized charts from extensive datasets
- Integrated ArcGIS maps to display sewer locations.

### Software Engineer

Carpedaws | JULY 2019- OCT 2020

- Developed diverse websites and web apps using technologies such as Node.js, React, Flutter, and PHP

### Junior Software Engineer

Dridatah | JAN 2019- JUNE 2019

- Developed diverse websites and web apps using technologies such as Node.js, React, Flutter, and PHP
